**Актуальность работы:** Английский язык, как известно, относится к числу наиболее географически распространенных. Только по приблизительным подсчетам, на нем разговаривают около 1 миллиарда человек на всех континентах Земли. Он давно стал международным языком. Страноведческий материал изучается на уроках английского языка, истории, географии.

Иностранный язык предоставляет благоприятные условия для усиления культурологического компонента образования. Образование средствами иностранного языка предполагает знания о культуре, истории, реалиях и традициях страны изучаемого языка. Для учащихся важен практический результат изучения иностранного языка, способность осуществлять непосредственное общение с носителями языка в ситуациях повседневного общения. Невозможно и бессмысленно изучать иностранный язык, не зная об особенностях страны изучаемого языка, культуре народов, особенностях быта.

Поэтому актуальность данной работы на современном этапе является очевидной с учетом новых веяний в системе образования, дающих простор преподавателям для новаторства и внедрения в жизнь собственных идей, которые позволяют реализовать творческий потенциал как преподавателя, так и учащихся.

**Цели:** развитие коммуникативной компетенции обучающихся через игровую деятельность;

## Ход мероприятия

*2 девочки сидят в аэропорту в зале вылетов, ожидая своего вылета. Выходит 3-й с чемоданом, садится и заводит разговор.*

3: Oh, hello! I've almost been late the airport. I'm .....

2: ..... (называет имя)

1: ..... (называет имя)

3: Nice to meet you

2: Nice to meet you too

1: Where are you going?

3: To Spain. I like traveling very much. By the way, I traveled to America last year. It was amazing! We've visited Grand Canyon National Park. Oh, I have a photo ....(показывает фото в телефоне, одновременно фото появляется на экране) Here it is. It's me. It's one of the oldest national parks in the United States and one of the recognized natural wonders in the world.

2: Where it is?

3: It's located in Arizona.

1: How long is the Grand Canyon?

3: The guide said that the park's area is 4927 km<sup>2</sup>, the canyon is 277 miles long and about 1 mile deep. Just imagine! Going from the top to the bottom is somewhat like going from Canada to Mexico.

2: How did you travel there? I mean, how can visitors explore the Grand Canyon?

3: You can explore the canyon by helicopter. But we hiked down to the bottom of the canyon. It was a two-day round trip, and we had to bring lots of water.

1: Wow, so cool!

3: Yeah, we've visited lot's of sightseeing, but I'm crazy about Hollywood Walk of Fame. It's in Los Angeles. I have dreamed of visiting this place since childhood! This alley is known for having many stars in its sidewalks with the names of the most famous Hollywood actors and singers. There are more than 10 million people willing to walk along it.

2: You're an avid traveler as I can see. I like travelling too. I have just got back from Canada. We have been at the Niagara Falls. It's located about 40 km from the city of Toronto, it is considered to be its main natural attraction. Niagara is one of the most amazing and picturesque waterfalls in the world. The sound of roaring

water is heard for many kilometers around, it sounds especially frightening at night, so when we stood at the very waterfall we couldn't hear nothing at all.

1: Awesome! Have you been at the Banff National Park? I've heard it's an amazing place!

2: Yeah, it's a real Inexpressible beauty. But I was surprised by another attraction In Canada. The Underground city (показать фото подземного города) is a popular attraction in Montreal. It is a huge space under the ground, consisting of winding tunnels, shops and metro stations. When visiting this place for the first time it seems as if it was in a large anthill, life in which doesn't stop for a minute. Now the Underground city in Montreal is a huge commercial and business space of 30 km long and 10 floors high. Just imagine, there are 1500 shops and boutiques, about 200 restaurants, more than 30 cinemas, 1600 apartments, 10 metro stations, a huge number of offices, concert halls, underground garages.

3: Wow! Breathtaking! It looks like a city from the Future.(обращается к 1 )And you? Have you ever traveled abroad?

1: Of course! I've traveled all over the Europe. I've also been in Australia. It's the most amazing place I've ever been. Australia is the smallest, flattest and driest continent in the world. It is the biggest island and smallest continent in the world. Australia is one of the oldest continents in the Earth; some of the rocks are more than 3000 million years old. The Great Barrier Reef, of Australia's east coast, is one of the wonders of the natural world. Did you know that it's the largest living organism in the world? The area abounds with wildlife, varieties of dolphins and whales, more than 1500 species of fish, 4000 types of mollusk and more than 200 species of bird. (показывает фото барьерного рифа)

2: Wow! I've heard there's an unusual mountain there. Have you seen it?

1: Yeah, It's Uluru. I have a photo of it. (показывает фото горы). It's not really a mountain, it's the world's biggest monolith. about 9 km if you walk around it, and about 345 m high if you climb it. It is over 3 km long, 2 km wide, and is roughly oval in shape. Uluru is famous for changing colour at sunrise and sunset.

3:And what places have you visited else in Australia?

1:Oh, i've visited Sydney the largest and the most visited city in Australia. There is a great number of attractions in Sydney. The most well-known ones are Sydney Opera House, Sydney Harbour Bridge, St Mary's Catholic Cathedral, Royal Botanical Gardens, Luna Park and several others.
